CLASS SIZE

2312 CLASS SIZE

The Board of Education recognizes the need to maintain a teacher/student ratio that brings balance to the educational needs of students and the economic needs of the community. Hence, the following represents a reasonable approach to accomplishing the above:

<u>Grade</u>	<u>Minimum</u>	<u>Maximum</u>
Kindergarten	12	24
1-3	13	26
4-8	14	28
Special Education	In accord with State Law	In accord with State Law

Any class size falling above or below the maximum range would require special remedy or special approval of the Board of Education. With regard to the former, such remedy can include the addition of teacher aides, the development of an additional class, the development of different instructional applications (i.e. cross-grading, no remedy at all).

Adopted: 29 May 2002
